

TAPE READER CONNECT BEHIND THE TAPE READER

OVERVIEW:

What are the benefits of using our BTR product? When you eliminate paper tape systems from your machine shop routine, you will be saving both time and resources. In order to maintain and operate a paper tape system, you will need to keep a working punch press tape, obtain Mylar tape, and find 9 inch reels. Once you have your supplies, there is the process of punching in the program.

When you have the BTR, you will no longer need to create your paper tape sequences manually, and you save storage space, as well as the money you would have spent on the aforementioned items. The best part is that our BTR is universal – no proprietary protocol is needed in order to communicate with it! Even better – this device comes with a 3 year warranty and 2MB file capacity.

If you are trying to run a larger NC program than the CNC memory can hold, you can eliminate the need to break up the part program into smaller segments by using the DNC or TAPE function on the CNC controller. The BTR will now feed the program into the machine line-by-line as the machine runs the program.

TAPE CONNECT:

- Replace tape readers and punches
- Send and receive CNC programs
- 2MB digital capacity
- Drip-feed (DNC) any size program or buffer mode for 100% tape compatible operations
- Reader speeds from 50 to 1000 CPS
- RS232 communications
- 200 to 19,200 baud
- Includes: power supply, standard reader cable, punch cable (if required), & setup disk
- Use our recommended software for full support or alternately, any other communication

EASY INSTALLATION:

- Pre-programmed reader, punch and control settings in EPROMs
- No dip switch settings
- Status LEDs
- Quality printed documentation

EXTREMELY RELIABLE:

- MTBF 50,000 operating hours
- Less than 0.01% failure rate
- Surface mount electronics
- 3 year warranty
- Free technical support

100% READER COMPATIBLE:

- Acuraread, Addmaster, Decitek, Digitronix, EECO, FANUC, GE, Ghilmetti, GNT, Oktronics, OKI, Remex, Ricom, Sanyo Denki, SloSyn, Tally, & more

100% PUNCH COMPATIBLE:

- Facit, Remex
